Product Info

It's a fact that no one likes to clean. You want to get the job over and done with, but you also understand that a dirty grill is a less efficient one.

So, banish grease and grime before your next cookout. Nexgrill's here to help with this dual-action stainless steel scrubbing tool. An ergonomic plastic handle joins two scouring pads together, so you'll use the same amount of elbow grease while covering twice the area.

- Measures 7.25"W x 4.13"H x 7"L
- Handles multiple cleanups
- Not for use in dishwashers
